PROFILE SUMMARY

- . Frontend Developer with 2+ years of professional experience plus a hands-on internship.
- . Core Tech Stack: Expert in HTML5, CSS3, JavaScript Tailwind CSS , and React JS – with a strong focus on writing clean, maintainable, and reusable component-based architecture.
- . Growth Mindset: Currently expanding my stack by learning Next.js, TypeScript, to build scalable, production-grade applications.
- . Career Ambition: Aiming to grow into a Senior Frontend Developer / Tech Lead role, where I can architect complex UI systems, mentor junior developers, and bridge the gap between design and engineering to deliver intuitive digital products.
- . What Makes Me Different: I don't just code – I obsess code maintainability, and user psychology to ensure every line of code serves a real purpose for the end-user.

TECHNICAL SKILLS

EXPERIENCE

Frontend Developer (Personal Projects & Self-Learning) 2024 – Present (2+ Years of Consistent Practice)

- Built 10+ responsive web applications from scratch using React JS, HTML, CSS, and JavaScript to strengthen frontend skills.
- Designed and developed fully functional projects including e-commerce store, weather app, to-do manager, and portfolio websites with real-time data.
- Integrated REST APIs (like Fake Store API, OpenWeather API) to handle dynamic data and practice real-world scenarios.
- Implemented responsive, mobile-first designs using CSS Flexbox, Grid, and Tailwind CSS for cross-device compatibility.
- Used Git/GitHub for version control, maintained clean code with proper comments and component reusability.
- Focused on performance optimization – lazy loading images, code splitting, and minimizing bundle size.

EDUCATION

- BS Computer Science (BS CS) In Progress, 2025 – Present
- Degree: Intermediate (FSc) | Bahria College NORE-1, Karachi, Pakistan | 2024 - 2025
